In outlining other reconstruction policies the President urged enactment of emergency tariff legislation to benefit the farmer, complete revision of the tariff laws, budget legislation, reorganization by Congress of the railroad situation with a view to placing the responsibility for present conditions, maintenance of American merchant marine and investigation by Congress of the price of goods, which may have retarded the decline of prices in a degree proportionate to prices paid the original producer.

(BY A. P. NIGHT WIRE.)
WASHINGTON, April 12.—The
fight over the Colombia treaty was
reopened in the Senate today with
Senator Lodge leading the ratifica-

administration hopes will re-
sult in a favorable vote, began with

sion of a message from President
Harding who declared "the early

treaty would be very helpful in pro-
moting our friendly relationships."

The note from Charles E. Hughes,
American Secretary of State, to the
Allies, declaring that America does
not abandon her rights in the peace
settlement, especially concerning
German overseas possessions, not

also crystallized the conviction
that the time has arrived to bring
about a solution of all problems
involving Japan and America be-
fore the relations of these countries
reach a critical stage.

GERMANS TO RESIST ALLIES, PARIS HEARS; BRITISH WILL BACK FURTHER OCCUPATION

(BY CABLE—EXCLUSIVE DISPATCH.)

PARIS, April 12.—Reports come from Berlin this evening of a schism in the
German government. If, as seems likely, the Pan-Germans have come into the
majority and Dr. Walter Simons, the Foreign Minister, goes out, the advice pre-
pare the rise to power of the government of the Right, which will offer strong resis-
tance to the will of the Allies.

Premier Briand Declares Time for Words Passed; Must Act

(BY CABLE AND ASSOCIATED PRESS.)
PARIS, April 12.—Premier Briand, in debate in the Chamber
of Deputies today on German reparations, declared:
"The time for words has passed. We must now revert to ac-
tion. We discern that the penalties enforced have not produced
the expected results. We note that there still exists in Germany a dis-
position to evade payment. On May 1 Germany will be faced with
a whole series of violations of the Versailles Treaty."

"We creditors hold a legal debt. A process server has been
dispatched to Germany and, if our debtor persists in refusal to
pay, the next time a policeman will accompany him."
"It is no use to begin over again discussions already closed.
We have in hand a promissory note duly signed and, if the debtor
refuses to pay, we must coerce him by all means of coercion in
our power."

"In full agreement with our allies we have a rendezvous with
Germany on May 1. France shall not fail that rendezvous."

M. De Lasteyrie of the Finance Committee said that Germany
had paid only 2,000,000,000 francs reparations, although she claimed
to have paid 21,000,000,000, having computed in her payments the
value of the war material left behind during her retreat.

"France must be paid," he concluded. "If Germany refuses,
France must go in herself and exact payment. It is a question of
life or death." This declaration was applauded.

STRIKING MINERS FIRM.

British Premier's Proposals to End the
Troubles Are Rejected.

(BY CABLE AND ASSOCIATED PRESS.)
LONDON, April 12.—The conference of the mine owners, mine
workers and government officials today failed to reach a settlement in
the miners' strike, the miners refusing to accept the Premier's proposals
for a national settlement of wages without a national pool of profits,
which Mr. Lloyd George declared impracticable.

Transport workers and railway-
men, however, suspended their
strike notices, which would have
expired at midnight tonight.

The only government proposal
which the miners would consider
was that the government
should offer, after the war, a
settlement to give temporary as-
sistance to mitigate the rapid re-
duction of wages; the others they
brushed aside.

The Premier met the owners and
miners in separate conferences today
jointly. But the miners stuck to
their demand for a national pool of
profits and a national settlement of
wages.

The Premier, after a two-hour
session with the miners, and again
in the joint session, said he had
nothing that would justify the gov-
ernment in changing the convictions
expressed in the Versailles Treaty.
A national pool would lead to govern-
ment control to which Parliament would
not agree.

Frank Hodges retorted that the
miners only asked for temporary
assistance, and that their perma-
nent demand was for a national pool
of profits.

WINNECKE COMET COMING.

Will be "Very Near" the Earth in June
Sighted by Yerkes Observer.

(EXCLUSIVE DISPATCH.)
CAMBRIDGE (Mass.) April 12.—Winnecke's comet, a periodical
comet which approaches the earth at intervals of five years and eight
months, and will come "very near" to the earth in June, according to the
prediction of Dr. Crommelin, prominent English astronomer, has been
sighted by Prof. E. E. Barnard of the Yerkes Observatory at William-
stown, Wis. Word to that effect has just been received at the Harvard
College Observatory.

Astronomers have been watching
for Winnecke's comet for several
months. It was originally discovered
in 1868. It moves in an elliptic or-
bit around the sun, and returns in
years and eight months to complete
the circuit. So far it has never
come within several million miles of
the earth on its periodic visits.

How near it will approach this
time, astronomers will probably
soon be able to compute with ac-
curacy. At present Winnecke's comet
cannot be seen except through a
large telescope.

Field's comet, which was dis-
covered at Cape Town, South Africa,
on March 13, and is now steadily in-
creasing in brightness, will make its
nearest approach to the sun on May
10, according to word received at
Harvard from Dr. Leuschner of the
University of California. The orbit
of Field's comet has been computed
by Einarsson and Meyer of the stu-
dent's observatory at the University
of California. Dr. Leuschner, who
is at the University of California,
said in his message, "On April 12 it
will be four and a half times brighter
than it was discovered and will be
at its maximum on April 25 about seven and a half
times brighter."

rations to replace the excess profits
tax was made to the American Farm
Bureau Federation conference today
by T. S. Adams, tax expert of the
Treasury Department. He also ex-
pressed opposition to a sales tax.

hibition laws at Chico.

INQUEST ON LAD'S DEATH IS PROBABLE.

Nevada Boy, Said to Have
Been Beaten, Dies; Report
on Autopsy Coming.

Following an autopsy on the
remains of Frank Lee, 14-year-old Las
Vegas (Nev.) schoolboy, who died
here yesterday after charges that he
was suffering from a whipping ad-
ministered at school had been made
and denied, County Autopsy Surgeon
Wagner announced last night that
his report on the cause of death will
be completed in a few days and that an
inquest will probably be held.

The boy, his parents reported, had
been given many lashes with a
leather strap in the Las Vegas school
for a slight infraction of the school
regulations. However, it was stated
that a public investigation of all
circumstances of the whipping had
been made and that the boy had been
injured in a football game and had
also recently recovered from an
amplioz. In the local hospital he
underwent several operations, but
died yesterday morning. The autopsy
was ordered by the boy's mother.

Dr. Wagner was first summoned
as a guest to the Johnson undertak-
ing parlors, 3535 Stephenson ave-
nue, last night by a group of physi-
cians interested in the case. When
Dr. Wagner arrived he telephoned to
Acting Coroner Williams that a post-
mortem, which physicians have a
right to conduct, was being held and
Mr. Williams instructed him to re-
main and conduct the post-mortem
as an official autopsy. After receiv-
ing Dr. Wagner's report, which will
not be given until a few days later,
Acting Coroner Williams will decide
if an inquest shall be held.

From Las Vegas it was learned
that Dist. Atty. Marmon declines to
make any statement regarding the
death of Frank Lee. In view of the
fact that a public investigation of all
circumstances of the whipping had
been made and that the boy had been
injured in a football game and had
also recently recovered from an
amplioz. In the local hospital he
underwent several operations, but

if an inquest shall be held.

From Las Vegas it was learned
that Dist. Atty. Marmon declines to
make any statement regarding the
death of Frank Lee. In view of the
fact that a public investigation of all
circumstances of the whipping had
been made and that the boy had been
injured in a football game and had
also recently recovered from an
amplioz. In the local hospital he
underwent several operations, but
died yesterday morning. The autopsy
was ordered by the boy's mother.

Dr. Wagner was first summoned
as a guest to the Johnson undertak-
ing parlors, 3535 Stephenson ave-
nue, last night by a group of physi-
cians interested in the case. When
Dr. Wagner arrived he telephoned to
Acting Coroner Williams that a post-
mortem, which physicians have a
right to conduct, was being held and
Mr. Williams instructed him to re-
main and conduct the post-mortem
as an official autopsy. After receiv-
ing Dr. Wagner's report, which will
not be given until a few days later,
Acting Coroner Williams will decide
if an inquest shall be held.

Taken on Indictment Issued
in Washington, D. C.

Horace D. Hitchcock and his wife,
Amy V. Hitchcock, wanted in Wash-
ington, D. C., under an indictment
charging use of the mails to de-
fraud, were arrested yesterday at
Arcadia by Dep. U. S. Marshal Black-
ley. The Hitchcocks had lived since
last July on a little chicken ranch
near Arcadia. Hitchcock was held
by U. S. Commissioner Long under
bond of \$1500 and his wife in \$500
for their appearance to answer the
indictment. They put up Liberty
Bonds.

It is charged that in 1915 Hitch-
cock began operations in Washing-
ton, under the name of the Wash-
ington Press Bureau, advertising
throughout the country that ap-
plicants could earn from \$10 to \$25
a week by writing for newspapers.
Hitchcock posed, it is said, as a Sun-
day feature writer on the New York
Times and the New York Press. For
\$200 he offered to sell a correspond-
ence course in journalism.

At that time Hitchcock was but
23 years of age, and had worked
several years in government depart-
ments at Washington. He had writ-
ten a number of articles for Chi-
cago and New York papers, but none
had been accepted, it seems.

NO MERCY FOR DRUG PEDDLERS.

Prison for All Convicted, Asserts Judge Bledsoe in Passing Two-Year Sentence.

U. S. District Judge Bledsoe again struck terror into the hearts of the drug peddlers and dealers yesterday when he sentenced George Myers, who pleaded guilty to two counts in an indictment charging him with violation of the Harrison narcotic law, to two years in the penitentiary at McNeil Island.

The young man almost fainted when judgment was pronounced, and his old mother, sitting in the rear of the courtroom, rushed to the front of the bench and pleaded "Oh, judge, have mercy on my boy," but there was no mitigation of the sentence.

Judge Bledsoe let it again be known that every man, either convicted or who pleads guilty to violation of the narcotic laws, will get a penitentiary sentence in his case. He proposed to do what he can to kill the traffic, he said.

In reply to the strictures on the conduct of the narcotic enforcement agents, made by Frank Donaghy, attorney for Myers, Judge Bledsoe intimated very strongly that he proposed upholding officers of the law if the officers put their hands in their pockets and walk up and down Broadway looking in the air for possible violators.

Myers pleaded guilty of purchasing 1000 heroin tablets of Louis Chavez, the suit was later found at his room, 418 West Ninth street. It was asserted the drug had been furnished to Chavez by Steve Dalton, prize fighter.

The bond of \$1500 given for the appearance of Hon. Chang, charged with a violation of the narcotic law, was declared forfeited by Judge Bledsoe.

Cases Aggregated, Hundred Thousand Dismissed After Five Years.

Libel suits for damages aggregating \$100,000, and filed by J. E. Youtz, formerly secretary and manager of the Merchants' Insurers and Reporting Company, more than five years ago, were dismissed in Judge Bunnell's court yesterday for lack of prosecution.

The suits were against Robert Mitchell, an attorney; the Insurers and Investment News and others, and grew out of a letter Mr. Mitchell is said to have written Mr. Youtz, in which he spoke of an examination of the accounts of Mr. Youtz in behalf of a client "to whom you fraudulently sold some stock in your corporation."

Mr. Youtz declared that the charges made in the letter were false and malicious.

This is the smoothest surface
of any paint yet made.

Will the paint on the walls of your shop or plant stand this test?

Why most white paints collect dirt

RUB your finger over the white paint on the walls of your workshop, store or plant. Does it leave a smudge as shown in the panel on the right? Or is there no trace?

All flat or egg-shell finish white paint under such a test will show some mark or smudge. Such paints collect dirt because their surface—smooth enough in appearance—is really rough and porous. This is readily seen when they are examined under the microscope. Thousands of tiny pores and crevices are revealed, in which dirt and dust steadily collect. Washing removes only a small part of this. The rest it fastens more securely in the tiny pores. The familiar dirty gray appearance soon results.

Barreled and woodwork can be made white and smooth by painting with Barreled Sunlight. The surface of this paint is

smooth and lustrous. It offers no lodging place for dirt and dust—and if soiled in the course of time it can be washed clean as easily as white tile. Made by the famous "Rice Process," it combines lasting whiteness, intense opacity, and ease of spreading.

For the home

Wherever light and cleanliness are especially desired—in kitchens, bathroom, laundry, closets—Barreled Sunlight is the ideal finish. Anyone can apply this paint with ease. It comes ready-mixed and flows freely from the brush.

In living-rooms and other interiors where dirt does not so readily collect and where a less lustrous surface is desired, our superior flat and egg-shell finishes should be used.

Sold in cans from half-pint to 5-gallon size. Also in barrels and half-barrels. Costs little more than ordinary paint—much less than enamel. May be tinted any color desired.

Dealers should communicate with us or with our nearest distributor regarding sales proposition.

Recipes for Popular Dishes Given by Wyman.

BY CHEF A. D. WYMAN.

(EXCLUSIVE DISPATCH.)

NEW YORK, April 12.—New York City has more foreign restaurants than any other city in the world, and each colony imports the foods of its home country. East of Fifth avenue, below Fifteenth street, each colony has its own cafe, and if you are the one to find a new one do not let your friends find it out, as it will lose its personality as soon as the tourists start to go there.

The New Yorker is a faddist when it comes to eating; let some one find a restaurant that serves out of the ordinary and all the sun dodgers in town will call it between 11 and 5 in the morning. Three months ago a coffee house owner down in the wholesale district was serving a whole meal sandwich between 11 and 2 for a noon lunch, and charging 25 cents for the service, with a drink included. He served the same sandwich now between 12 and 5 in the morning and charges \$1. drinks extra. This sandwich is made with two large slices of rye bread, spread with a mustard mayonnaise, a slice of boiled ham, a slice of veal, and all covered with finely shredded cabbage, mixed with Thousand Island dressing, garnished with dill pickles and garlic olives. Seats are at a premium in this one-time workman's lunch room after midnight.

On all the butcher shop windows is a large sign asking the public to eat more meat. I asked a butcher why he displayed this sign, and was told that the consumption of meat in this city had decreased 50 per cent in six months. He told me that the public wanted more fish, vegetables and California fruits and that the fruit and vegetable men were selling more produce than they had in years.

FEATURE VEGETABLES.

The menus in the cafes feature vegetable dinners, fish specialties and all kinds of salad combinations. One of the nicest salad combinations is served in a cafe over on Columbus avenue, and is made with equal parts of sliced orange, apple and grapefruit, placed on a bed of shredded lettuce, garnished with preserved plums, covered with cooked dressing and sprinkled with seedless raisins.

One of the best ways for serving avocado is used by a Fifth-avenue caterer for dancing party suppers. Peel small avocados, cut in half and remove seeds. Make a tomato jelly with canned tomatoes and gelatin. Fill avocados with the jelly and place on the ice to harden. When firm place on a lettuce cup and serve with dressing made by adding to a French dressing finely chopped blanched almonds.

Another nice avocado salad is made with avocado dice, mixed with shredded celery, served on a bed of watercress with a cheese dressing.

DELICIOUS FISH.

At a little French restaurant where we sometimes eat, our hunch they serve broiled slices of fish with tartar sauce that are delicious. Cut a fresh barracuda, or half-inch slices and marinate each slice in a sauce made with one cup of olive oil, half a teaspoonful of black pepper, four tablespoons of minced onion, one tablespoonful of minced parsley, and if handy one finely chopped medium-sized mushroom. After the slices have been well dipped in this marinade, cover with bread crumbs and bake in a hot oven. When the slices are a nice golden color remove to a hot platter, sprinkle with chopped parsley and serve with tartar sauce.

Fillet of sole Venetienne, as served by Papa Leon on the East Side, would do credit to the most expensive cafe in the city. Place in a deep buttered baking dish one finely chopped onion, one crushed bay leaf, two whole cloves, one tablespoonful of chopped parsley and a little salt and pepper. Lay on this fillets of sole and cover with good butter, pour over a generous stock or water, add two tablespoonsful of orange juice and two tablespoonsful of lemon juice. Cover the dish with oiled paper and bake in the oven fifteen minutes. When the fish is cooked remove all the liquor except enough to moisten the fish. Strain the liquor and add to it two tablespoonsful of flour creamed with one tablespoonful of butter, bring the sauce to a boil; remove from the fire and add the yolk of one egg, one tablespoonful of chopped parsley and two tablespoonsful of chopped olives. Place fillets on a hot platter, pour over the sauce and serve garnished with lemon slices and parsley branches.

ASKED FOR RECIPES.

As New York caterers will celebrate Rains Day on the 30th inst., I have been asked for some recipes for their menus, and, to suggest something that they have not already served has been a task.

To one of the tea room managers I gave a recipe for oatmeal cookies and he told me that they were the best that he had ever served. Beat to a cream two-thirds of a cup of butter and one cup of sugar and two well-beaten eggs. Sift two cups of flour with one teaspoonful of salt, half a teaspoonful of soda, one teaspoonful of cinnamon and half a teaspoon of ground mace. Add to the butter mixture with cup of oatmeal, half a cup of milk and one cup of chopped seeded raisins. Drop from a spoon on a buttered pan and bake in medium oven.

Old-fashioned raisin gingerbread was served at one of the tea rooms near the New York College, and the manager told me that he sold more of it than the fancy cakes. This is made by mixing one cup of buttermilk with one cup of molasses and a teaspoon of soda. Add one beaten egg and three cups of flour sifted, with half a teaspoonful each of ground cinnamon, cloves, mace and a teaspoonful of ginger. Mix well and stir in two cups of chopped raisins. Pour into buttered shallow pans and bake in a moderate oven.

An expert from the Fitrite Corset Shops is here to help you to be better corseted!

All the laws of health, hygiene and common sense require proper corseting for women, and yet how few women know just which corset is the right one for them individually—for health, for comfort and, at the same time, for style.

The demonstration last week, and the questions asked of the expert in charge of it, made us feel that the dissemination of a wider knowledge of correct corseting would be greatly appreciated by our customers and that we could do them no greater service than to have another demonstration so that more women might avail themselves of the opportunity to learn more about corsets.

Therefore, beginning Wednesday, an expert from the Fitrite Corset Company will demonstrate for you important points—either not properly understood or else overlooked by many women when choosing that most important part of the costume—the very foundation of a woman's costume—her corset.

HARSH MEASURES.

The Postmaster-General is arming the postal employees in all positions of danger and offers to pay \$5000 a head for mail robbers, dead or alive. This should put a crimp in the business of looting mail cars and wagons which has been going on at a harrowing rate. Any man who tampers with our mails or females should get the limit.

Balfour at Paris said in effect: "France needs cash and machinery. England is also hard pressed, but she can and will wait. Therefore, let us settle for the whatever she gets out of unscathed Germany and we will take our indemnification in colonies and trade concessions." It was the old story, a strictly business story. The man in a trade who is desperately in need of cash pays too much for it.

In this case France paid too dearly for cash because she did not even get the cash, but only the added burden of the responsibility of collecting what she could. Balfour got for England choice portions of two continents and freedom from the burden of acting as bill collector. It was a French blunder and a complete victory for the man who has always been for generations been trained in the superabundance of trading by governments.

Technically, France is not bankrupt, since

she has not repudiated her debts and told her creditors to waive payment or collect by force. Actually, however, the maximum amount which she can raise from her citizens without causing them to revolt at further burdens by calling in a new govern-

some things
every man should
think about

Do you know what will happen
if you leave no Will?

Do you know what will become of
your real property—and personal
property?

Do you know what distribution the
law will make between your wife
and children?

Do you know what the law prescribes
about the appointment of an admin-
istrator?

Do you know what distribution of
your property you can direct by mak-
ing a Will?

Do you know that you can ap-

CHAMBER FOR PORT BONDS.

Urging the City Council to place before the voters the \$4,800,000 bond issue recommended by the Board of Harbor Commissioners for harbor improvements, the board of directors of the Chamber of Commerce yesterday filed with the City Council a strong endorsement of the proposed issue. The directors of the chamber also stated that they approve of an issue of \$2,000,000 for additions to the city's fire department equipment. This proposed issue has not been presented to the City Council, but the directors of the chamber state that they were

informed that the Board of Fire Commissioners will soon file a request that the issue be placed on the ballot at the general city election, June 7.

Police Chief Pendegast yesterday appeared before the vigilance committee of the chamber and told of the need of at least 100 additional policemen. One plan to secure them is for the voters of the city to raise the tax limit from \$1 to \$1.30 on each \$100 property valuation in the city. The addition of 30 cents, under the proposal, is to be used exclusively for additions to the police force.

Service

One of the most vital cogs in human relations the world over is Service—and it is a tribute to the founders of Hamburger's that the doctrine of service was an important part of the stock-in-trade when the doors of the little shop were first thrown open, nearly forty years ago.

It was an important discovery that a store had a higher function in the life of the community than the mere selling of merchandise—and we believe that one of the policies that has endeared Hamburger's store to the hearts of the people of Los Angeles is the fact that the idea of "Service, first, last and all the time," has grown correlatively with the store.

Nothing is too much trouble here if it means service to the customer.

Strenuous Efforts Were Put Forth to Find Skirts of a Superb Quality—Correct in Style and Faultless in Workmanship. Judging From the Assemblage, One Might Conservatively Say, "Wonders Have Been Accomplished."

Skirts for very dressy occasions, for sports wear or general utility—a glorious ensemble at a remarkable price advantage. Wools in stripes and plaids, every newest color among them—silks in plain colors and novelty effects, styles as varied as Fashion's moods. Sizes 25 to 33 for women and misses.
